

The L35A2 7.62mm GPMG / 5.56mm MINIMI Swing Arm Softmount is specifically designed for use as a commander's swing arm on utility vehicles.

The modular design of the mount assembly enables it to be deployed and modified to suit varying roles. The mount system incorporates the proven ISTEC GPMG Softmount, currently in service with the British Army, Marines, Royal Navy, US Marines and Coastguard.

Features include:

Modularity

The buffered softmount, ammunition box holder, and swing arm are all removable without tools.

Travel locks can be set up for the individual vehicle and position, and prevents customer desired arcs being exceeded.
